RANSON J., VAN VLASSELAER J., VRANKEN S. & VAN OPSTAL M. (2024). First record of Eckström's topknot *Zeugopterus regius* (Bonnaterre, 1788) in Belgian waters — Corrigendum. *Belgian Journal of Zoology* 154: 70–71. <https://doi.org/10.26496/bjz.2024.179>

Due to an oversight in the paper by RANSON *et al.* (2024), Figure 4 and its caption on page 67 need to be replaced by new ones:

Figure 4 – *Zeugopterus norvegicus*, size not registered, caught offshore of Hull, United Kingdom, 2022-08-28 (© Jan Ranson). Pointed head with a less distinct notch (1), and separated pelvic and anal fins (2) are shown.
